All malt beverages a brewery or beer importer ships to a retailer or distributor in Montana must meet the definition of "beer" stated in Section 16-1-106, Montana Code Annotated. Beer cannot contain caffeine or other stimulants. Beer containing between 8.75 and 14 percent alcohol by volume must be made by the alcoholic fermentation of an infusion or decoction, or a combination of both, in potable brewing water, of malted cereal grain and the sugars used for the fermentation of the beer must be at least 75% derived from malted cereal grain measured as a percentage of the total dry weight of the fermentable ingredients.

Please list the products you wish to ship to a retailer or distributor in Montana that meet the criteria above.
