Agent News

* **ATTENTION:** Our anticipated **warehouse closure** for April has been postponed yet again. We will provide you with additional information as soon as we can narrow down a new date.

* **Starting** with this Product Update, we will provide you our monthly case sales snapshot. Please note, these numbers are not available for the prior month until after the product update goes out, which will cause it to always be a month behind. Example: March numbers will not report till around the 5th of April and will be included in the May update. For more clarification on this, please call one of the liquor distribution team members.

* **Aalborg Jubilaeums Aquavit** 449-64049-75 is moving to a 449-64049-70 size. Please note this is the same NABCA middle five numbers it is only the 75 going to a 70 that has changed.

* **Also note:** many products are changing sizes from 750ml to 700ml. Most of the time this causes a NABCA number change. Please see the miscellaneous section of this update for these products.
