Liquor Control Division General Information

Montana History of Liquor Control

The State Board of Examiners established the Montana Liquor Control Board in 1933. Patterned after the alcohol beverage distribution system in Alberta, Canada, the Board was charged with the responsibility of purchasing, pricing and vending liquor in the state. By the first quarter of 1935, 115 state-owned retail stores were in operation. In 1937, liquor-by-the-drink became legal. In the mid-1960s, emphasis on customer services brought self-service stores to the state. In 1973, the state legislature abolished the Liquor Control Board and transferred its responsibilities to the Department of Revenue, Liquor Control Division. In 1995, the state legislature directed the department to convert all remaining state liquor stores to agent owned liquor stores. All agency liquor stores now own their liquor inventories that they continue to purchase through the state warehouse, but are permitted to set their own retail prices as long as it is at or above the minimum state established prices. All liquor license holders purchase liquor through the agency liquor stores at a cost no greater than the state's established price.

The Control Jurisdiction Advantage

When Prohibition was repealed in 1933, the process of determining the method of regulation of alcohol beverages fell to the citizens of the United States who decided by jurisdiction how they could best balance individual freedom with the social risk and public costs of beverage alcohol consumption. The result is that all U.S. residents experience some type of governmental control over the sales and/or distribution of beverage alcohol.

Over 80 years later, those jurisdictions that chose to operate under the control system continue to do so today. The control system has withstood the test of time because it is fundamentally sound. It is flexible enough to adapt and evolve to meet the changing demands of consumers.

Liquor Control Division General Information

By participating in the marketplace, the control jurisdictions are able to serve their citizens with a broader and more flexible range of policy options to promote the moderation in the consumption of alcoholic beverages and reduce alcohol abuse. Another value of the control distribution system is that it operates solely on the revenue derived from the beverage alcohol sales in its jurisdiction. No property, state or other local taxes are used to support control distribution system operations.

Montana is proud to be a control distribution jurisdiction and the Montana Department of Revenue, Liquor Control Division continues to evolve to optimize the benefits of the control jurisdiction, while improving wholesale and customer service to our consumers.

 **19 Control Jurisdictions**

Alabama, Idaho, Iowa, Maine, Michigan, Mississippi, Montana, New Hampshire, North Carolina, Ohio, Oregon, Pennsylvania, Utah, Vermont, Virginia, West Virginia, Wyoming, MD-Montgomery County, and MD-Worcester County

Liquor Control Division General Information

Our Mission

To provide effective and efficient administration of the Montana Alcoholic Beverage code with an emphasis in customer service and public safety by applying uniform and fair regulations while ensuring an orderly system for the convenient distribution and responsible consumption of alcoholic beverages.

Our Liquor Licensing team works to protect the welfare and safety of the public by regulating liquor licensing laws in a uniform and fair manner.

Our Liquor Distribution team works to efficiently maintain a regulated channel of distribution with an emphasis on customer service by fulfilling the public demand of distilled spirits and fortified wine through agency liquor stores.

Our Function

Montana, along with sixteen other states and two counties in Maryland, are known as “control jurisdictions.” These jurisdictions control the sale of distilled spirits and, in some cases, beer and wine through government agencies at the wholesale level.

As a control state, Montana believe that moderation can best be achieved neither promoting nor encouraging the consumption of alcohol but, instead by controlling it. The purpose of control is to make distilled spirits available to those adults who choose to drink responsibly, but not to promote the sale of distilled spirits.

Residents in Montana are in good company – 27 percent of the U.S. population operates under the control distribution system – where policies that support moderate and responsible consumption replace economic incentives and the proceeds from the sale of beverage alcohol go directly to the residents rather than to private sellers. The control jurisdictions represent 27 percent of the nation’s population and account for roughly 24 percent of its sales of distilled spirits.

Liquor Control Division General Information

Benefits to Montanans

- A major source of revenue:

Distilled spirit sales provide a source of revenue to citizens and taxpayers. These revenues help fund state-government operations and to support several government programs

- Support of alcohol programs:

Revenues from distilled spirit taxes are distributed to the Department of Public Health and Human Services for the treatment, rehabilitation and prevention of alcoholism and chemical dependency.

- Promote moderation:

Control systems promote moderation in consumption. Annual statistical data clearly shows that per capita consumption of distilled spirits is 14.3% per capita lower in control states than in open states. ([The Fiscal and Social Effects of State Alcohol Control Systems](#), May 2013, page 35.)

- Improve overall safety through education, regulation and enforcement:

The control jurisdiction system continues to provide a regulatory environment that is better able to deter the ever-present risks and costs to the individual and the community due to the abuse of alcohol. At one level, the uniform enforcement of applicable laws are made far more effective in a control jurisdiction; where there are ordinarily fewer sales outlets and, more importantly, where the economic incentive to violate those laws is greatly reduced. At another level, the control system itself serves both as a visible symbol of the public commitment to moderation and as a vehicle for the promotion of alcohol education and awareness programs to support that commitment.

Liquor Control Division General Information

Liquor Distribution Bureau

Liquor Distribution manages state wholesale liquor operations, including warehouse shipping and receiving, accounts receivable and payable, inventory management, liquor order processing, agency contract management and customer service. The state maintains agency franchise contracts and supplies of liquor to 96 private agency liquor stores. These agency liquor stores are the exclusive retailers of liquor and fortified wine; they sell to the public for off-premise consumption and to Montana's 1500+ all-beverage licensees. The state Liquor Warehouse held bailed and/or state owned inventories for approximately 1,300 regular list products and more than 2,800 special order products.

Fiscal year 2015 generated a combined total income from taxes collected and profits earned of \$37.9 million. This is approximately \$1.9 million more than the previous year.

Liquor Licensing Bureau

Licensing is charged with licensing and regulatory responsibilities for all entities intending to produce, import distribute or sell alcoholic beverages in Montana. Liquor licensing processes applications, renewals, transfers and registrations, as applicable, for retail, wholesale and manufacturing alcoholic beverage licenses and permits. Liquor licensing is responsible for compliance of licenses and permit holders and for providing information and explanation about licensing activity or related law, rule, policy and procedures.

The bureau issued a total of 5,154 licenses for fiscal year 2015 including license renewals for retail sale of distilled spirits, beer or wine, vendor permits, winery registrations, distributors, breweries and special beer and wine permits.

License fee revenues generated in fiscal year 2015 were \$2.4 million which includes revenues collected for registrations, processing, seating fees and late payments on renewals and liquor license violations. Liquor license violations were up from 117 in fiscal year 2014 to 151 in fiscal year 2015. Revenues generated in fiscal year 2015 for these fines were \$74,766.

Liquor Control Division General Information

Liquor Education

The Liquor Education unit is responsible for educating and informing servers and sellers, license holders, distributors, manufacturers, law enforcement and the general public on topics addressing responsible sales and consumption of alcoholic beverages. This is accomplished through a variety of educational presentations and training materials.

Liquor Education continues to review outside server training programs that could be used in the state, insuring they meet the state's statute and rule. Liquor Education also provides presentations at various community events, DUI Task Force meetings, specialized law enforcement trainings and train-the-trainer sessions for the Let's Control It program. Liquor Education periodically sends mailings and resource materials to liquor license holders, trainers and law enforcement providing useful information and outlining the responsible sales and service of alcohol.

The Liquor Education Unit of the Montana Department of Revenue recently earned the third annual Leadership in Alcohol Regulation Award by the national Center for Alcohol Policy. The leadership award recognizes a program, agency or person that oversees the alcohol industry and promotes public safety. The award highlights effective best practices that may serve as examples to alcohol regulators in other states. The Center for Alcohol Policy is a nonprofit organization that educates policy makers, regulators and the public about alcohol, focusing on its uniqueness and regulation. The Department of Revenue's Liquor Education Unit has developed a broad network of community partners, brought in more than 240 active volunteer trainers and expanded and updated the state training program Let's Control It. The unit has worked with statewide partners to launch efforts such as the Montana Community Change Project, DUI task forces across the state, the Comprehensive Highway Safety Plan Alcohol Strategy Implementation team and the Interagency Coordinating Council on State Prevention Programs.

Five Year History of Liquor Taxes and Profit

Fiscal Year	Liquor Net Profit	Liquor Excise Taxes	Liquor License Taxes	Total Revenue
2011	9,770,839	13,411,139	8,381,042	31,563,020
2012	10,291,714	14,291,424	8,931,713	33,514,851
2013	11,191,232	14,876,139	9,296,333	35,363,704
2014	10,984,017	15,430,324	9,642,234	36,056,575
2015	11,601,672	16,190,200	10,119,984	37,911,856

In 2015, \$31.3 million from liquor operations were distributed to the State **General Fund** and \$6.6 million to the **Special Revenue Fund**. The Department of Public Health and Human Services uses special revenue funds to treat, rehabilitate and prevent alcohol and chemical dependency.

➤ Taxes

Excise Tax (16% of Wholesale Price)*

- Distributed to State General Fund

License Tax (10% of Wholesale Price)*

- 65.5% Distributed to State Special Revenue Fund for the Department of Public Health and Human Services

- 34.5% Distributed to State General Fund

➤ Liquor Profit

Distributed to State General Fund

*Taxes vary based on production levels. The majority of suppliers are assessed tax at this rate.
